

NAVAER 1080C

NOTICE—When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement activity, the Government assumes no liability for any infringement or other legal liability that may result. The fact that the Government is a party to a contract does not constitute an acknowledgment of liability for any damage, loss, or injury, or for any consequences arising therefrom, or for any expenses or costs incurred by the contractor or subcontractor in connection with the contract, or for any damages, loss, or injury, or for any consequences arising therefrom, or for any expenses or costs incurred by the contractor or subcontractor in connection with the contract, or for any damages, loss, or injury, or for any consequences arising therefrom, or for any expenses or costs incurred by the contractor or subcontractor in connection with the contract.

NOTE—This drawing was approved by joint action of the Air Force and Navy Department as an Air Force-Navy standard for this product. This drawing represents a contract standard and is not to be used for any other purpose without the express approval of the Air Force and Navy Department. This drawing is the property of the Air Force and Navy Department and is loaned to the contractor for the limited purpose of approval thereof.
