

NO. When Government drawings, specifications, or other data are used for any purpose other than in connection with a definite related Government procurement operation, the United States Government is authorized to reproduce and distribute reprints for Government purposes not to be exceeded by implication or otherwise in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.

Air Force
 This drawing was prepared by joint action of the Army and Navy Departments as the standard for the product. This drawing supersedes all standard drawings for the same product and all later editions of the same drawing. It may be put into effect, however, at an earlier date after promulgation shown.
