

NATAER 10900

NOTICE.—When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the Government incurs no responsibility, nor any obligation whatsoever, and the fact that the Government is the source of such data is not to be regarded as an endorsement, approval, or recommendation of the Government, or as an indication that the Government is in any way connected with or has any interest in the product, or as an indication that the Government is in any way connected with or has any interest in the product, or as an indication that the Government is in any way connected with or has any interest in the product.

NOTE.—This drawing was approved by joint action of the Air Force and Navy Department as the Air Force-Navy standard for this product. This drawing is the standard for all subsequent standard drawings for the same product and shall be used for the procurement of aeronautical supplies, or for use in new designs, not later than 12 months after the latest date of approval shown.
