

NOTICE: When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government reserves the responsibility and the right to take any action that the Government may have to protect its interest. It is not to be construed that the Government is in any way endorsing, approving, or certifying any product or service, or that it is in any way liable for the quality, quantity, or performance of any product or service, or that it is in any way liable for the quality, quantity, or performance of any product or service.

NOTE: This drawing was approved by joint action of the War and Navy Departments as the Army-Navy standard for this product. This drawing supersedes all antecedent standard drawings for the same product and shall have the same effect as if it were the only drawing for the product. It may be used for other than the original purpose for which it was developed.
