

NOTICE: When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility, nor any obligation whatsoever; and it is hereby stated that the Government makes no warranty, express or implied, in connection with the use of such data except as may be required by implication or otherwise in any manner inconsistent with the stated facts. The Government reserves all rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.

NOTE: This drawing was approved by joint action of the War and Navy Departments as the Army-Navy standard drawing for the design and construction of the battery. It is to be used for the procurement of a standard battery, or for use in test design, not later than six months after the latest date of approval shown. It may be put into effect, however, at an earlier date after presentation.
