

NOTICE.—When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility, nor any obligation whatsoever; and the fact that the Government may have furnished, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded as implying in any way the endorsement, approval, or recommendation of the Government, or the Government's participation in any way in the design, manufacture, use, or sale of any patented invention that may in any way be related thereto.

NOTE.—This drawing was approved by Joint action of the Air Force and Navy Department as the Air Force-Navy standard for this product. This drawing supersedes all antecedent standard drawings for the same product and shall become effective for the procurement of aeronautical supplies, or for use in new design, on the date of approval shown.
