

DATA ITEM DESCRIPTION

Title: Engineering Documentation Product Drawings

Number: DI-DRPR-81680

AMSC Number: 7591

DTIC Applicable: No

OPR: NS/DA023

Applicable Forms: N/A

Approval Date: 20060814

Limitation: N/A

GIDEP Applicable: No

Use/relationship:

a. To provide Engineering Documentation Product Drawings to support prototype and limited production of equipments and systems. The drawings will be used to support the maintenance, repair, spare procurement, training, testing, and configuration baseline of the equipment and system acquired.

b. This Data Item Description (DID) contains the format and content preparation instructions of the Engineering Documentation Product Drawings resulting from the work task described in the contract SOW, the ASME Standard, Y14.100-2004, "Engineering Drawing Practices" (entire document) and 3.7.a. of DS-61, "NSA Data Standard for the Preparation of Engineering Documentation" Appendix B, Revision F.

Requirements:

1. Reference Documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices and revisions, shall be as stated herein. DS-61 (current edition) is available at the National Security Agency, Acquisition Logistics and Deployment Review, 9800 Savage Rd, Suite 6129, Fort Meade, Md. 20755-6129, Attn: DA023. The ASME standard, Y14.100-2004, is available through the American Society of Mechanical Engineers (<http://www.asme.org>).

2. Format and Content. The drawings shall be created to meet the requirements of ASME Y14.100-2004, as tailored per overarching standard outlined in 3.7.a. of DS-61.

3. END OF DI-DRPR-81680
