DEPARTMENT OF DEFENSE INDEX OF SPECIFICATIONS AND STANDARDS

FOREWORD

The Department of Defense Index of Specifications and Standards (DODISS) and related standardization documents is comprised of four separate parts as follows:

- PART 1 - An alphabetical listing of all current and inactive standardization documents in order by the title of the document, plus all standardization documents canceled since the last basic DODISS.
- PART 2 - A numerical listing of all current and inactive standardization documents in order by document identifier number, plus all standardization documents canceled since the last basic DODISS.
- PART 3 - A Federal Supply Class (FSC) listing of all current and inactive standardization documents in alphabetical order within each FSC, plus all standardization canceled since the last basic DODISS. FSC's are identified in the Cataloging Handbook H2-1.
- PART 4 - A numerical listing of all standardization documents canceled from 1964 to date of the current edition.

The Department of Defense Index of Specifications and Standards (DODISS) is published under authority of the Executive Agent for the Defense Standardization Program, and is issued with supplements effective 1 September, 1 November, 1 January, 1 March and 1 May.

Comments or suggestions pertaining to the maintenance of this index should be addressed to:

Document Automation and Production Service
Bldg. 4D DPM-DODSSP
700 Robbins Avenue
Philadelphia, PA 19111-5094

"The Department of Defense Index of Specifications and Standards is available as follows:

Military Activities:

DODSSP
Standardization Documents Order Desk
700 Robbins Avenue Bldg. 4D
Philadelphia, PA 19111-5094

Government Civil Agencies and Non-Governmental

Activities (subscription basis only):
Superintendent of Documents
U.S. Government Printing Office
Washington, DC 20402

GENERAL PROVISIONS

1. This publication lists the unclassified Federal and Military specifications, standards, and related standardization documents, and those non-government standards adopted for DOD use.

2. Revisions are indicated by a suffix letter to the basic number, except for Air Force-Navy Aeronautical Standards (Sheet Form) and Qualified Products Lists which indicate revisions by a suffix number.

3. Amendments and change notices are indicated by a suffix number in parenthesis to the basic number. Interim amendments or change notices appear as separate documents after the coordinated document.

4. In the active section under the column headed "DATE" the date listed is that of the latest document issue. In the canceled section under the column headed "DATE" the date listed is normally the date of cancellation or date of DOD withdrawal of a NGS.

5. The following control symbols pertain to Commercial Item Descriptions, Federal Specifications, Standards, and Qualified Products Lists only and appear immediately preceding the "Preparing Activity" column in the parts of this index indicated:

- # - The pound symbol (#) identifies Federal Documents for which no official DOD interest has been registered.
- * - The asterisk (*) identifies Federal Documents for which DOD has a coordination interest.
- % - The percent symbol (%) identifies Federal Documents for which DOD has waived coordination interest.
- / - The slash symbol (/) identifies Federal Documents prepared by a DOD activity.

6. Distribution Statements: Documents listed in this index with other than distribution statement "A" require release approval. To request copies of these documents all request must be submitted via the preparing activity.

7. The codes listed are assigned to identify the activities of the military services and appear in the column 7 headed "Preparing Activity" indicating preparing activities. These codes will also identify custodians or review activities included after the title in the active and inactive sections of the DODISS. Military Coordinating Activity for a Federal document which was prepared outside the Department of Defense is denoted by an asterisk "*" preceding the Preparing Activity column.

8. Federal Standardization Documents are available for reference at General Service Administration Business Service Center and some Federal Government Depository Libraries. Federal Standardization Documents (single copies, priced or otherwise) are available from:

Federal Supply Service Bureau
Specs Section (3FPB-W)
Suite 8100
470 E L'Enfant Plaza, S.W
Washington, DC 20407

9. COLUMN 1 ACTION-Indicates the type of computer transaction.

- A - Indicates a change since the last published index.
- D - Indicates a change/correction to the index.
- M - Indicates a modification to an existing document.
- N - Indicates a new document being entered.

(*These Actions DO NOT Apply to Part IV Canceled Listing)

COLUMN 2 DOCUMENT NUMBER-Contains the document number, revision, amendment number, notice number, supplement number and interim amendment or notice.

COLUMN 3 DOCUMENT TITLE-Contains the document title and identifies any interest for that document.

***CANCELLED DOCUMENTS** will either have a suggested replacement document after the title or the phrase (No S/S Document).

COLUMN 4 DIST STMT-Indicates the distribution statement for that document.

COLUMN 5 FSC/AREA-Contains the Federal Supply Class or Area Assignment for that document.

COLUMN 6 MCA SYMBOL-These symbols identify the degree of interest DOD has in Federal Specifications or Standards.

COLUMN 7 PREPARING ACTY-Identifies the DOD activity which prepared the document.

COLUMN 8 DATE-Contains the document date (DDMMYY).

10. Federal Supply Classes (FSC) (numeric) reflected in this index are listed and described in DOD Handbook H2-1. In addition, the following alpha symbols reflected in this index as an FSC indicate standardization areas (not listed in DOD Handbook H2-1) and are defined as follows:

SYMBOL	DESCRIPTION
ADMN	Administrative Data
ATTS	Automatic Test Technology Standards
AVCS	Avionics
CMPS	Composites Technology
DCPS	Data Communications Protocol Standards
DRPR	Drawing Practices
EDRS	DOD Engineering Data Reproduction Systems
EGDS	Engineering Data Systems
EMCS	Electromagnetic Compatibility
ENVR	Environmental Requirements and Related Test Methods
FACR	Facilities Engineering and Design Requirements
FNCL	Financial Data
FORG	Forgings
GINT	Geospatial Intelligence Technology
HFAC	Human Factors
INST	Information Standards and Technology
IPSC	Information Processing Standards for Computers
MCCR	Mission Critical Computer Resources
MECA	Metal Castings
MFFP	Metal Finishes and Finishing Processes and Procedures
MGMT	Management
MISC	Miscellaneous
MSSM	Modeling and Simulation Standards and Methodologies
NDTI	Nondestructive Testing and Inspection
NUOR	Nuclear Ordnance
PACK	Packing, Packaging, Preservation and Transportability
QCIC	Quality Control/Assurance and Inspection
REPS	Radio-Frequency Exposure to Personnel Safety Standardization
SAFT	System Safety
SDMP	Standardization and Data Management Programs
SESS	Systems Engineering Standards and Specifications
SOLD	Soldering
TCSP	Technical Support
TCSS	Telecommunications System Standards
*TELE	Federal Telecommunications Standards
THDS	Screw Threads
THJM	Thermal Joining of Metals (except soldering)
TMSS	Technical Manual Specifications and Standards

*AREA "TELE" is for indexing purposes only. It is not a DOD AREA Assignment.

11. International Standardization Documents have been included in the DOD Index of Specifications and Standards. They are identified under areas ISDA, ISDN and ISDF (International Standardization Documents sponsored by Army, Navy and Air Force respectively). However, ISDA, ISDN and ISDF are symbols identifying the documents as being other than those in the FSC Classes and Areas reflected in the Standardization Directory (SD-1).

12. Since organization and responsibilities can change, you should obtain the current information for all preparing activities, custodians and reviewers from the ASSIST database at <http://dodssp.daps.mil>.

HOW TO OBTAIN/ORDER STANDARDIZATION DOCUMENTS

Obtaining Standardization Documents

1. Most Defense and Federal Standardization documents distributed by the DODSSP are available for viewing online or downloading from the ASSIST, "The Official Repository for these documents". Most active and inactive documents, as well as some historical documents, are available as (PDF) files and may be viewed or downloaded using either ASSIST-QUICK SEARCH or ASSIST-ONLINE.

For more information about this free service visit the DODSSP website: <http://dodssp.daps.mil>

Ordering AD Hoc Requests

2. All ad hoc standardization document requests are handled through an automated system called the Acquisition Streamlining & Standardization Information System (ASSIST, Customer Accounting Management System (CAMS)). ASSIST stores most Standardization documents as digital files in Portable Document Format (PDF). As document requests are received, the appropriate document files are retrieved from the repository and printed or copied to CD-ROM packaged and then shipped. For special documents (such as color or oversized) are warehouse maintained, ASSIST retains inventory data for efficient management. ASSIST generates status letters to customers if an order cannot be completed as requested. ASSIST retains records of completed orders for customer follow-up for one year. No confirmation of orders received/processed is provided at this time.

All requests shall include the following information:

- a. Your assigned customer number or if this is your first order and you do not have a customer number, one will be assigned to you for future orders.
- b. Indicate your complete mailing address, including any specific information required to identify and direct the order when received.
- c. List each desired specification or standard by document identifier as recorded in the Department of Defense Index of Specifications and Standards (DODISS), e.g., MIL STD, MS, QPL, etc. document titles are also helpful but not required.

TURNAROUND TIME

Document requests or status letters produced from mail and FAX requests are usually shipped within 1 to 5 days of request receipt. Orders are shipped from the DODSSP by several different carriers, depending on factors such as weight and destination. Be sure to allow 1 to 2 weeks for shipping.

IMPORTANT ORDERING INFORMATION FOR ALL AD HOC REQUESTS

Only the specification requested will be issued. Documents referenced within a specification must be requested individually.

The latest amendment and notice will be automatically issued with the basic specification unless otherwise stated.

When submitting multiple mail requests, place the mailing address on each request form.

If handwritten requests are to be submitted, please use black or dark blue ink only.

Specification sheets, such as MIL-E-1/307 must be individually requested by document number. Specification sheets are not issued as a set.

Do not submit a request for a specification citing a national stock number of an item covered by the specification. DODSSP has no method to cross-reference a national stock number to the applicable specification number.

Non-Government/Industry standards stocked at the DODSSP are not available to private industry and must be ordered from the preparing technical societies.

The DODSSP does not maintain a file of Invitations for Bid. Requests for Proposals, contracts, etc., so each individual request must list the document identifier desired.

2. Customers can also order Standardization documents via the World Wide Web using ASSIST Shopping Wizard, managed by the DODSSP, Philadelphia. The ASSIST Shopping Wizard provides public access to standardization documents over the Internet. Users may place orders for documents and request paper, or CD-ROM format by establishing a customer account with the DODSSP.

3. The ASSIST Shopping Wizard is available to all users having registered for an account. User accounts are used to maintain customer profile data including name, organization, address, and other information necessary to process and ship document orders placed through the Shopping Wizard web site. When you receive an account, you will be given a password to access the system.

Reproduction of Specifications and Standards

Firms desiring to reproduce and redistribute unclassified and unrestricted specifications and standards may do so without reference to the Department of Defense since these documents are in the public domain.

Special Assistance desk is available Monday thru Friday 7:30 A.M. to 4:00 P.M. (Eastern Time) to assist you in matters such as:

- Inquiries about our services;
- Status of orders previously placed;
- Establishing a Customer Account;
- Sources for documents not at the DODSSP;
- Researching special requests, such as obtaining a complete set of documents; and
- Assistance determining document identifiers.

We are also interested in your comments about the quality of our service, and any suggestions you may have to assist us in making future improvements to serve you better. Comments or suggestions may be forwarded to the following address:
