FOREWORD

PURPOSE: The Consolidated Cataloging Data Distribution List (CCDDL) is compiled and maintained by the Directorate of Customer Products and Services (DLIS-V), a Directorate at the Defense Logistics Information Service (DLIS) located in Battle Creek, Michigan. It serves primarily as an address list for distribution of data, information, instructions and operational guidance concerning the Federal Catalog System. It also serves as an address list for communication between the activities which participate in the Federal Cataloging Program.

This consolidated list provides a single, ready reference for cataloging contact points, to show the kinds and quantity of cataloging data distributed by the Directorate of Logistics Information Management (DLIS-LF), and reduce time and effort required to maintain multiple lists. The listings referenced in this publication are shown below.
