PROGRAM GUIDE
FOR
PARTS REQUIREMENTS AND APPLICATION**

The website URL for SD-18 has changed. The SD-18 is a guide that offers extensive information for the selection, design, procurement, and assessment of parts used in military systems. Since the guide is quite large, it is maintained on a website located at:

<http://www.navsea.navy.mil/Home/WarfareCenters/NSWCCrane/Resources/SD18.aspx>. The website contains the most up-to-date information. CD-ROM updates are no longer provided.
