Change No.	Date	Location

This UFC cancels UFC 4-610-02N, dated January 2004.

FOREWORD

The Unified Facilities Criteria (UFC) system is prescribed by MIL-STD 3007 and provides planning, design, construction, sustainment, restoration, and modernization criteria, and applies to the Military Departments, the Defense Agencies, and the DoD Field Activities in accordance with [USD\(AT&L\) Memorandum](#) dated 29 May 2002. UFC will be used for all DoD projects and work for other customers where appropriate. All construction outside of the United States is also governed by Status of forces Agreements (SOFA), Host Nation Funded Construction Agreements (HNFA), and in some instances, Bilateral Infrastructure Agreements (BIA.) Therefore, the acquisition team must ensure compliance with the more stringent of the UFC, the SOFA, the HNFA, and the BIA, as applicable.

UFC are living documents and will be periodically reviewed, updated, and made available to users as part of the Services' responsibility for providing technical criteria for military construction. Headquarters, U.S. Army Corps of Engineers (HQUSACE), Naval Facilities Engineering Command (NAVFAC), and Air Force Civil Engineer Support Agency (AFCESA) are responsible for administration of the UFC system. Defense agencies should contact the preparing service for document interpretation and improvements. Technical content of UFC is the responsibility of the cognizant DoD working group. Recommended changes with supporting rationale should be sent to the respective service proponent office by the following electronic form: [Criteria Change Request \(CCR\)](#). The form is also accessible from the Internet sites listed below.

UFC are effective upon issuance and are distributed only in electronic media from the following source:

- Whole Building Design Guide web site <http://dod.wbdg.org/>.

Hard copies of UFC printed from electronic media should be checked against the current electronic version prior to use to ensure that they are current.

INTRODUCTION

1-1 CANCELLATION.

This UFC is cancelled without replacement.

This UFC provided guidelines for maintenance management to optimize use of maintenance resources at Naval Reserve Centers. The UFC included methods and procedures for evaluating facilities maintenance, identifying and accomplishing work, recordkeeping, and submission of required reports.

Commander, Naval Installations (CNI) is the cognizant authority for the operation and maintenance of Naval Reserve Centers. Contact the responsible Navy Regional Engineer Office for the latest information on issues related to maintenance management of Naval Reserve Centers. Contact, Commander, Navy Installations for latest information on the location and contact information for the appropriate Navy Regional Engineer Office.
