- 6.3.4 Uninsulated ground drain wires. Delete and substitute:
- "6.3.4 Uninsulated ground drain wires. Uninsulated ground drain wires are wires which may be bare or covered with a non insulating green covering used to identify them as ground wires and should not be confused with the green insulated conductor used in portable power cable as the equipment ground conductor (see 6.3.2). These uninsulated ground drain wires are used in heavy duty outdoor and mine cables.
