MIL-STD-1311B

1. SCOPE

1.1 Purpose. This standard establishes uniform methods for testing the environmental, physical, and electrical characteristics of electron tubes as required by MIL-PRF-1 and the applicable tube specifications (TSS). Unless otherwise specified or authorized, tests shall be conducted as specified herein (see 4.6).

MIL-STD-1311B

2. REFERENCED DOCUMENTS

2.1 Specifications and standards. The issues of the following documents in effect on the date of invitation for bids form a part of this standard to the extent specified herein.
