- 1/ The dash number added to the MS military-standard number constitutes the MS part number; for example MS 14043-1.
- 2/ The decrease in maximum operating temperature from 125°C to 105°C does not downgrade these coils but assures satisfactory operation at 105°C for a minimum of 2000 hours of life rather than a shorter period of operation at 125°C.
