5950

TOP VIEW OF TERMINAL BOARD ✓

1/ Internal design shown is typical and may be varied in detail providing performance meets the requirements of MIL-T-16387. However, such deviations shall not necessitate external wiring connection changes between transformer and parent equipment for purpose of circuit matching. (D)

## NOTES:

1. For design feature purposes, this standard takes precedence over procurement documents referenced herein.
2. Referenced documents shall be of the issue in effect on date of invitation for bid.
3. All dimensions in inches.

This military standard is approved by the Department of Defense and is mandatory on all activities. Selection for all new engineering and design applications and for repetitive use shall be made from this document.

APPROVED 1 July 1951 (D) For changes see sheet 2
