NOTES:

- 1. Dimensions are in inches.
- Complete strain relief unit consists of accessory nut and a follower with strain relief arm. The accessory nut shall be captivated to the follower and free to rotate.
- Materials: Aluminum alloy.
- 4. Finish on strain relief hardware shall be:
  - B. Cadmium plate per QQ-P-416, Type II, class 3: color dull olive drab.
  - C. Anodic, type II, in MIL-A-8625, class 2, color black.
  - F. Electroless nickel per MIL-C-26074, class 3 or 4, grade B.
- 5. Strain relief unit is to be used with MS17821-1 plastic strap, MIL-T-713 lacing twine or MIL-T-43435 lacing tape or equivalent.
- 6. Each strain relief unit shall be identified with manufacturer's name or trademark and the appropriate MS part number.
- 7. Qualification: One sample in each size range (lower, middle, and upper) for which qualification is desired shall be tested. Each sample shall be assembled to a qualified connector or a connector undergoing qualification. The connector insert arrangement shall be of the maximum number of contacts, using the appropriate wire size approaching the minimum wire diameter. Testing shall be as follows and shall be performed in the sequence listed:
  - A. Examination of product.
  - B. Magnetic permeability The relative magnetic permeability shall be less than 2.0 when checked with an indicator conforming to MIL-I-17214. Wired assemblies shall not be carrying current.
  - C. Vibration in accordance with method 2005 of MIL-STD-1344, test condition III.
  - D. Shock in accordance with method 2004 of MIL-STD-1344, test condition
  - E. Salt spray (corrosion) in accordance with method 1001 of MIL-STD-1344, condition B.
  - F. Test report: Three copies of the Test Report shall be submitted to the qualification agency together with new untested units of the same quantity and production lot as used for qualified by similarity. The test report shall include the following:
    - 1. Actual results of all qualification measurements required by the specification.
    - 2. Certifications of all materials and finishes.
- 8. Quality assurance:
  - A. Examination of product.
- 9. The items described herein are covered by patent 3, 603, 913 and 3, 732, 527.
- 10. Any portion of this standard which may be covered by copyrights owned by Glenair, Inc., is reprinted with the express permission of said company.
