AIR FORCE - 82

REVIEWER ACTIVITIES:

This military standard is approved for use by all Departments and Agencies of the Department of Defense. Selection for all new engineering and design applications and for repetitive use shall be made from this document.

FED. SUP CLASS

6630

MATERIAL: Viscosimeter shall be made of corrosion resistant steel in accordance with Military Specifications MIL-S-5059 and MIL-S-7720.

DESIGN: The viscosimeter shall have a 44 mL capacity cup with a calibrated orifice in bottom. The side supports shall have a brace that will support a dial type thermometer. Overall length is 35 cm.

NOTE: Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.
