PROCUREMENT SPECIFICATION	AIR FORCE-NAVY AERONAUTICAL STANDARD	AN6021
MIL-G-6019	GAGE, PANEL MOUNTING LOW PRESSURE OXYGEN	

NOTICE—This drawing was approved by joint action of the Air Force and Navy Departments. Government procurement agencies may list it in specifications, and contractors may refer to it in their proposals, without any additional approval. Changes in this drawing may be made only by joint action of the Air Force and Navy Departments. Any person who has information that may be helpful in changing this drawing should submit it to the Government. Any person who has a proposal to change this drawing should submit it to the Government and may prepare and submit specification sheets for consideration by the Government. Such proposals should be submitted through the cognizant Air Force or Navy activity. Any person who has a patent, patent application, or other property interest in any subject matter shown on this drawing should call it to the attention of the Government. Any person who has information about any such property interest should submit it to the Government. Any person who has any other interest in the subject matter of this drawing may submit his views to the Government. Such views may be submitted through any of the activities listed above, or may be submitted directly to the Government. Any person who has any other interest in the subject matter of this drawing may submit his views to the Government. Such views may be submitted through any of the activities listed above, or may be submitted directly to the Government.

NOTE—This drawing was approved by joint action of the Air Force and Navy Departments for the Air Force-Navy standard for this product. This drawing supersedes all existing standard drawings for the same product and shall become effective for the procurement of new contractual requirements for use in new designs, and from and after the dates of approval shown.
