NOTICE—When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility, nor any obligation whatsoever; and the fact that the Government may have furnished, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any right or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.

This military standard is approved by the Department of Defense and is mandatory on all activities. Selection for all new engineering and design applications and for repetitive use shall be made from this document.

1. All dimensions in inches.
2. Unless otherwise specified, tolerances are $\pm 1/64$ on fractions, ± 0.005 on decimals, and $\pm 1/2^\circ$ on angles.
3. Alternate construction combines this coupling sleeve and bayonet sleeve (MS Part No. MS90223-1) into one-piece construction with modified (open) bayonet slot. When alternate construction is used, the bayonet sleeve is omitted from the connector assembly.
4. Referenced documents shall be of the issue in effect on date of invitations for bid.
5. This standard takes precedence over documents referenced herein.
