INTRODUCTION

KSC SPECIFICATIONS and STANDARDS

This is an index of current and canceled/superseded Kennedy Space Center Specifications and Standards. Paper copies of this index and the KSC Specifications and Standards indexed herein are available from the Kennedy Space Center Library Documents, Specifications, and Standards Department. (Mail code: LIBRARY-D, Phone: 321-867-3613, KSC-DL-Library@mail.nasa.gov) The Library can also supply electronic copies.

The NASA Technical Standards Program also provides access to KSC Specifications and Standards through its Agencywide NASA Technical Standards System at <http://standards.nasa.gov/>

It is the intent of KSC to use the **latest version of the documents referenced in the “Current Status” column** unless otherwise indicated.

Individual KC fittings standards are available in KSC-GP-425 Fluid Fitting Engineering Standards. The Kennedy Space Center Library Documents, Specifications, and Standards Department has paper copies of KSC-GP-425, and it is available electronically through the NASA Technical Standards Program at <http://standards.nasa.gov/>.

The KSC directorates responsible for current individual specifications and standards are listed in the Office of Primary Responsibility (OPR) column.

EXPORT ADMINISTRATION REGULATIONS 99 NO LICENSE REQUIRED (EAR 99-NLR) NOTICE

The following document contains information that is determined as in the Public Domain/Publicly Available within the purview of the International Traffic in Arms Regulations (ITAR), 22 CFR section Public Domain – 120.11 and Export Administration Regulations (EAR), 15 CFR 730-774, Publicly Available in Part 734.7 and Part 734.8. Information is “published” when it becomes generally accessible to the interested public in any form including the following: Through sales at newsstands or book stores, subscriptions, libraries open to the public, patents available at any patent office, distribution at a conference, meeting, seminar, trade show or exhibition, the internet and generally accessible to the public in the U.S.

The information contained in the document is technical in content, but is not technical data as defined by the ITAR or the EAR, and therefore is **EAR 99 NLR** (no export license required). [General Prohibition Six (Embargo) applies to all items subject to the EAR, i.e. items on the CCL and within **EAR 99 NLR**. You may not make an export or re-export contrary to the provisions of part 746 (Embargos and Other Special Controls) of the EAR and 22 CFR part 126.1 of the ITAR.]

If you have any questions concerning who is eligible to receive KSC Specifications and Standards which have been determined to be **EAR 99 NLR**, please contact Kennedy Space Center Export Control Help Desk, 321-867-9209.

UPDATED SPECIFICATIONS AND STANDARDS INFORMATION

Between printed revisions of the Index of Kennedy Space Center Specifications and Standards, updated information can be requested from the Kennedy Space Center Library Documents, Specifications, and Standards Department, at the contact information below.
